COSOFT C-100/08-2008

COSOFT C-100

COSOFT C-100 is a concentrated cold to warm water dispersible (30-60°C) weak cationic softener granular powder intended for a wide variety of applications; in softening fabrics and garments of natural and man made fibres.

COSOFT C-100 imparts a clean, soft bulky and absorbent handfeel to treated fabrics and fibres. It does not cause discolouration, worsening of fastnesses to dyed fabrics or treated denims.

The Advantages of **COSOFT C-100**:

- 100% Active.
- Low to non-foaming.
- Very low degree of yellowing, applicable even on white fabrics.
- No backstaining caused when applied onto treated denims.
- Brightness of colours / white maintained. Does not cause blurriness to denim abrasions.
- Excellent viscosity and dilution stability at 10 and 20 times dilution with cold or warm water.

Physical properties:

Appearance : Pale yellowish, non dusting powder/granular.
Ionic nature : Weak cationic.
Odour : Mild.
pH (1% solution) : 7±1.0

Application:

Padding : 20-50 g/L (Diluted 10 times with water)
Exhaust : 2-5 g/L (Diluted 10 times with water)

Note: To avoid mixing with Anionic products in same application bath. To adjust bath pH to slightly acidic to improve yield of **COSOFT C-100**. (If necessary)

Packaging : 25 kg water resistant bags.

Storage : Store in cool and dry conditions. Avoid heat and heavy stacking. (May form loose Blocks but will not affect effects). Close bags immediately after opening to avoid possible contaminations.

Shelf life : Minimum 9 months from date of production.

Separate MSDS available upon request
