ANTISTAIN OP10K/05-2007

## ANTISTAIN OP10K

**ANTISTAIN OP10K** is a specially developed non-dusty polymeric powder product designed to control backstaining in handling most classes of unfixed dyes in the water medium. Typical usage of this product is in the processing of indigo denim jeans, pigment wash garments, bleaching of contrast printed stripes garments and fabrics. The product comes in non dusting white powder, does not contain hazardous chemicals, O.B.A. and is chlorine free.

**ANTISTAIN OP10K** is used in the formulation of cellulase enzyme powder / granular products to increase / enhance enzymic activity and to create more prominent and whiter abrasion effects on denim fabrics and garments.

**ANTISTAIN OP10K** can be used as an ingredient in formulating with powdered / granulated cellulase enzymes.

**ANTISTAIN OP10K** is ECOTEX-100 compliance, is non-hazardous, non-flammable for transportation. It does not contain restricted chemical substances and is not based on **Nonyl-phenol** and **APEO** composition.

### PHYSICAL PROPERTIES:-

|                   |   |                                  |
|-------------------|---|----------------------------------|
| Appearance        | : | Non-dusty powder                 |
| pH of 1% solution | : | 5.5 ± 0.5                        |
| Solubility        | : | Dispersible in warm water (50°C) |
| Odour             | : | Mild                             |

### USERS' RECOMMENDATION:-

Piscean cellulase enzyme powder products 10% ~ 30%

**Antistain OP10K** (top up to 100%)

Use 1.0% to 2.0% on weight of fabrics of the blended mixture in normal laundry processing.

### PACKINGS:

25kg bag, 700kg tote bag.

### STORAGE:

Store in a cool and dry place. Avoid direct sunlight. Keep lid tight when not in use.

### TRANSPORT:

Product is not hazardous for transportation.

*Separate MSDS is available upon request.*
