P-CONC

PIMAZE P-CONC

PIMAZE P-CONC is a concentrated, alpha-amylase powder product developed specifically for formulators for use in in desizing base. The product is stable in high temperature liquor for desizing of textiles, fabrics and garments.

Treated goods will yield softer handle, better dyeability, overall less susceptible to problems that would otherwise surface during after-processing.

The use of this product does not affect or damage the quality of treated goods although a slight loss in weight of the treated goods is expected due to removal of starch and synthetic sizes from the treated fibres.

The Advantages of **PIMAZE P-CONC**:-

- Highly concentrated water-based product, readily dispersible in water
- Compatible with most desizing procedures applied in the textile and garment wash industry
- Compatible with most non-ionic surfactants for desizing
- Good storage stability at below 35°C
- Easy handling
- Economical in costs
- Long storage stability of more than 9 months at below 30°C

PRODUCT CHARACTERISTICS:

Appearance : Brown colour powder
 S.G. : 1.1
 pH : 6 ~ 7
 Odour : Strong fermented odour
 Solubility : Dispersible in water

USERS' RECOMMENDATIONS:

PIMAZE P-CONC is recommended to be diluted 6 to 10 times before application at 1g/L (sample effect after treatment).

For effective penetrations and removal of oil, wax and synthetic sizing materials, auxiliaries like wetting agent, detergent and scouring agent may be used. Cheleting agents should be avoided.

PACKINGS : 25kg / 30kg drums
STORAGE : Store in a cool and dry place. Avoid direct sunlight and heat.
TRANSPORT: Product is water-based, non-flammable, and not a marine pollutant.

Separate MSDS is available upon request.
