PISOFT B200 is a concentrated off-white solid type, polyester, blends and other synthetic fabrics garment and leather softener powder/prills. Non-ionic in nature, it is colour fast to light, does not cause yellowing to treated fabrics, leather and garments.

Treated goods will yield silky, soft silicone like softer handle, fuller volume and noticeably increase in water absorbancy and elasticity. It will also enhance abrasion resistance and sewability of the treated fabrics.

PISOFT B200 will not influence any of the fabrics physical properties adversely, be in colour fastness to light washing and crocking.

The Advantages of **PISOFT B200**:-

- √ Ecotex 100 compliant
- √ Highly concentrated, being in solid powder/prill form.
- √ Universal softener for a wide variety of fibres, especially in use on polyester and its blended fabrics.
- √ Non-yellowing, non-ionic.
- √ Hydrophilic.
- √ Antistatic.
- √ Imparts silicone like silky soft finishes on polyester fabrics without risk of silicone spottings.
- √ Compatible with most chemicals, resins for padding processes.

USERS' RECOMMENDATIONS:-

Dissolved **PISOFT B200** with **3 to 10 times** its amount in weight with warm to hot water (60°C to 80°C), while stirring.

Use 2% to 10% of diluted **PISOFT B200** on weight of fabrics.

Amount **PISOFT B200** to be added depends on effects warranted.

PACKINGS:

25Kg water resistant reinforced bags.

STORAGE:

Store in tight lid condition, avoid direct sunlight, heavy stacking heat and humidity.

TRANSPORT:

Product is not classified as hazardous.
