PISOFT QD8 is a specially developed, anionic, non-yellowing, high grade softener intended to be used as a hand builder and surface feel modifier on fabrics and garments of various blend of fibres.

PISOFT QD8 imparts superior handfeel both in the fibres and on the surface of treated goods. Treated fibres and fabrics will experience increased wettability, improved tear strength, elasticity and anti-static properties.

PISOFT QD8 is a **concentrated** product. It should be diluted with at least **3 - 5 times** of its weight with suitably treated water before use to increase yield and penetration into fibres.

PISOFT QD8 is a water-based product which is made from cosmetic grade ingredients. It does not contain hazardous chemicals, or APEOs.

General characteristics of treated fibrec / fabics / garments:

1. Superior body and surface feel, comparable to silicone softener feel.
2. Non-yellowing, even on white fabrics
3. Improved elasticity, tear strength, sewability
4. Pill resistant, anti-static
5. Improves wettability of fabrics
6. Anti-ozone properties

Advantages over other softeners:

1. High performance / low costs
2. Good hand builder
3. Good compatibility (Prior tests needed)

PHYSICAL PROPERTIES:

Type : Compounded anionic nano dispersions
 Appearance : Milky white thick paste
 pH(1% solution) : 6.5 +/- 1.0
 Diluent : Water
 Odour : Negligible

USER'S RECOMMEDATION:

Exhaust : **1 - 3 g/L**
 Padding : **5 - 10 g/L**

PACKING:

120 / 200 kg big open top HDPE Drum.

STORAGE:

Store in a cool and dry place, with lid closed to avoid contamination.

SHELF LIFE :

12 months from date of manufacturing at below 30°C

Separate MSDS is available upon request.

CERT. NO. : 2001-2-1286
SS ISO 9001: 2000

CERT. NO : SG-1286
