SEWLUBE 989 is an advanced light colored, textile machine lubricating self – emulsifying oil specially designed to be used in the textile and garment industries. **SEWLUBE 989** helps lubricate textile machinery, especially components that come into contact with textile material to be processed, thus preventing moving machine parts from excessive wear and tear, and to reduce otherwise stubborn staining onto fabrics and garments.

SEWLUBE 989 can be applied widely, from lubrication of spin and spindle rings, notched bars, needle boards, on knitting and weaving frames to sewing machines.

ADVANTAGES OF SEWLUBE 989:-

- Excellent anti-wear and lubricity performance on metal moving parts
- Excellent protective properties of machine parts from corrosion
- Wets out and flows into tight clearances to reduce friction and subsequent heat build- up
- Excellent resistance to oxidation processes
- Highly compatible with machine components, especially in elastomeric materials
- Excellent washability to when stained onto other materials

PHYSICAL PROPERTIES:-

Appearance	:	Light colored to slightly yellowish solution
pH at 25°C	:	Weak alkaline
Density at 25°C	:	0.85 ± 0.05

PACKINGS:

120Kg HDPE open top drum.

STORAGE:

Keep in cool and dry place. Avoid heat and sunlight. Always keep container lid closed when not in use to prevent contamination.

CERT. NO. : 2001-2-1286
