**WOOLEX 850L** is a specially formulated, weak alkaline proteolytic enzyme liquid that has been developed specifically for use in industrial treatments of protein – based fibers such as wool and silk.

Treated goods will yield improved drape, pilling resistance, softer handle and better surface appearance in both worsted and woolen goods.

**WOOLEX 850L** is best applied on finishing processes of wool; as to descale and improve gloss, softness of fibres and fabrics. It enhances pilling resistance of treated wool fabrics significantly.

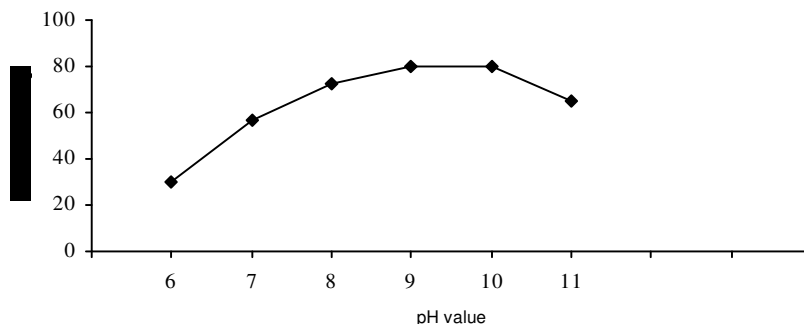

Silk applications such as sandwash, degumming can be achieved with **WOOLEX 850L**. **WOOLEX 850L** is best applied economically after a short and hot silk degumming process with alkaline and surfactant (90 – 100 75° C, 30 minutes).

**WOOLEX 850L** is a water-based product. It is Ecotex – 100 compliant. It does not contain NPs and APEO chemicals. It is also non-flammable.

Operational pH : 7.5 to 10.5  
Operational temperatures : 45° C to 75° C  
Duration : 15 - 60 minutes

Figure 1 show the relative activity of **WOOLEX 850L**
